	Year	2023
	Kilometers	100
	Transmission	Hybrid
	Exterior Color	Silver + Black
	Interior Color	Black
	Horse Power	900+ HP
	Engine Size	1.6L V6 Hybrid
	Specs	Others
	Warranty	Available

An Unprecedented Hypercar Experience

At Exotic Cars Dubai, we are proud to present one of the most groundbreaking vehicles in the history of automotive engineering—the Mercedes-AMG ONE, available for sale in an exquisite silver exterior adorned with an iconic small star livery. This hypercar represents the pinnacle of Mercedes-Benz's Formula 1 technology, brought directly to the road. The AMG ONE is a true hybrid masterpiece, featuring advanced aerodynamics, cutting-edge engineering, and an exterior design that captures the imagination. The small star livery adds a touch of artistic flair, perfectly complementing the car's futuristic design and highlighting its heritage as a machine born from motorsport excellence.

Exquisite Design: Exterior Innovation

The Mercedes-AMG ONE's silver exterior, highlighted by a distinctive small star livery, makes this hypercar instantly recognizable and a true symbol of automotive innovation. The star livery not only adds a unique visual identity but also pays homage to Mercedes-Benz's illustrious racing history. Its aggressive yet elegant lines embody performance at its finest. The front splitter, massive rear wing, and diffuser work seamlessly to enhance downforce, ensuring that this beast remains glued to the road at high speeds. The car's active aerodynamics system—directly derived from Formula 1 technology—includes retractable front flaps and an adjustable rear spoiler, allowing the car to switch between optimum downforce for cornering and reduced drag for high-speed performance. Every line, curve, and intake has been designed with both aesthetics and functionality in mind, making the Mercedes-AMG ONE a rolling piece of engineering art.

An Interior Like No Other: Race-Inspired and Futuristic

Stepping into the interior of the Mercedes-AMG ONE is like stepping into the cockpit of a Formula 1 car. The minimalist design is focused entirely on performance, yet it doesn't skimp on the luxury you'd expect from Mercedes-Benz. The cabin, fitted with lightweight materials, carbon fibre elements, and a futuristic layout, reflects the car's dedication to speed and efficiency. The driver and passenger seats are integrated into the monocoque chassis, providing a low-slung, race-like seating position, while the F1-inspired steering wheel is equipped with controls for driving modes, performance settings, and much more.

The digital display showcases critical data in real-time, from engine performance to lap times, ensuring that drivers are fully engaged with the car at all times. High-quality materials like Alcantara and leather are used sparingly but effectively, adding a touch of luxury without detracting from the hyper-focused interior. Despite its performance-oriented nature, the AMG ONE offers practical elements like climate control, multimedia systems,

and adjustable seats, ensuring that it's as usable on the road as it is on the track.

Unmatched Performance: F1 Technology for the Road

The beating heart of the Mercedes-AMG ONE is its revolutionary hybrid powertrain, directly derived from Mercedes-AMG's championship-winning Formula 1 engine. The car is powered by a 1.6-litre V6 turbocharged hybrid engine paired with four electric motors, delivering a total output of over 1,000 horsepower. This advanced powertrain allows the AMG ONE to accelerate from 0 to 60 mph in just 2.6 seconds and reach a top speed of 217 mph, making it one of the fastest and most technologically advanced road cars ever built.

The hybrid system is paired with an 8-speed automated manual transmission, ensuring lightning-quick gear shifts. This is a car built not just for straight-line speed, but for delivering unparalleled performance in corners as well. The advanced all-wheel-drive system ensures optimal traction, while the sophisticated suspension setup, also derived from Formula 1, provides unmatched handling and stability at high speeds. The AMG ONE also features several driving modes, including a fully electric mode for quieter city driving, as well as a race mode that unleashes the car's full potential on the track.

Hybrid Powertrain Mastery: Efficiency Meets Power

One of the most remarkable aspects of the Mercedes-AMG ONE is its hybrid powertrain. The 1.6-litre V6 engine works in harmony with four electric motors to provide not only earth-shattering performance but also a level of efficiency rarely seen in hypercars. The energy recovery system harnesses energy from both braking and exhaust heat, feeding it back into the battery to provide additional power when needed. This system allows for incredibly efficient energy usage, reducing emissions and enhancing the car's eco-friendly credentials without sacrificing performance.

Racing Heritage Meets Street Usability

The Mercedes-AMG ONE is essentially a Formula 1 car for the road, but it remains surprisingly practical for daily use. The vehicle's energy recovery system, advanced cooling technologies, and road-legal emissions compliance mean that this car can be driven both on the racetrack and through city streets with ease. The hybrid powertrain allows for brief periods of fully electric driving, making it versatile in different environments.

Despite its motorsport origins, the AMG ONE retains the comfort and sophistication of a true Mercedes-Benz. The car features climate control, a high-quality audio system, and infotainment technology designed to keep you connected and entertained on the road.

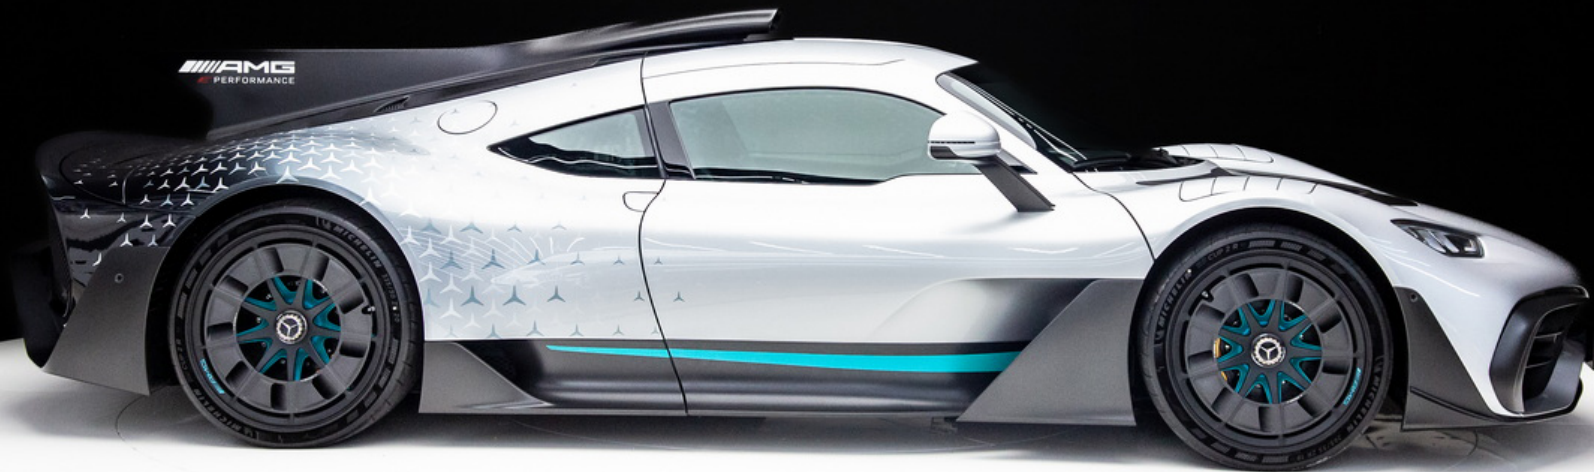

Exclusive and Rare: A Collector's Dream

The Mercedes-AMG ONE is not only a technological marvel but also an incredibly rare hypercar. With limited production and Formula 1-derived technology, it is highly sought after by collectors and enthusiasts. Owning one of these vehicles places you in an exclusive group of drivers who value both innovation and exclusivity. The AMG ONE, with its silver exterior and unique star livery, is a true standout, representing the culmination of decades of motorsport innovation and engineering prowess.

Visit Exotic Cars Dubai to Experience the Mercedes-AMG ONE

This stunning silver Mercedes-AMG ONE, featuring a star livery and cutting-edge Formula 1 technology, is available now at [Visit Exotic Cars Dubai](#). Don't miss the opportunity to own one of the most exclusive hypercars ever produced. With over 1,000 horsepower, advanced hybrid technology, and a race-inspired design, the AMG ONE promises an unparalleled driving experience. Visit us today to explore this incredible vehicle and witness the future of automotive performance and luxury.
