2023 Land Rover Defender P525 V8 Carpathian Edition

Raw Power. Tactical Design. Refined Presence.

The **2023 Defender P525 V8 Carpathian Edition** is the most powerful, exclusive, and visually striking expression of the iconic Defender yet. Designed for those who demand both capability and character, this edition blends military-inspired toughness with premium refinement. Finished in a stealthy **Matte Carpathian Grey (Matte Black)** with signature Narvik Black accents and paired with a luxurious **Tan Windsor leather interior**, this Defender is built to stand out — everywhere from the dunes of Dubai to the mountain roads of Hatta.

Now available at **Exotic Cars Dubai**, this limited-edition V8 Defender combines Land Rover's legendary off-road DNA with supercharged power and urban sophistication.

Exclusive Carpathian Edition Design

The Carpathian Edition takes the Defender's rugged roots and elevates them with a stealth-inspired aesthetic. The **Matte Black exterior** is factory-finished with a satin protective film, enhancing durability while giving the vehicle a commanding, tactical look. Black contrast roof, black 22-inch alloy wheels, and Carpathian-specific detailing create a cohesive and aggressive design package. Red brake calipers and quad exhausts hint at the immense performance that lies beneath.

Luxurious Tan Interior with Rugged Detailing

Step inside and you're greeted by a refined yet functional **Tan Windsor leather cabin**, accented by exposed structural elements, Alcantara trim, and satin black finishes. The blend of luxury and durability is unmistakable — every surface feels premium yet purpose-built.

Heated and cooled memory seats, a full digital instrument cluster, and the latest **Pivi Pro infotainment system** ensure a connected, comfortable, and confident driving experience. This is an interior designed to support both adventure and everyday refinement.

Supercharged V8 Performance

At its core, the P525 V8 Defender houses a **5.0-liter supercharged V8** engine pushing out **525 horsepower** and **625 Nm of torque**, allowing it to sprint from 0 to 100 km/h in just **5.2 seconds**. Mated to an 8-speed automatic transmission and Land Rover's advanced Terrain Response 2 system, it delivers relentless power and confident control across sand, rock, asphalt, or city streets.

With an upgraded suspension, active rear locking differential, and a sonorous quad-exhaust system, the Defender V8 delivers the roar and precision of a performance SUV — without compromising its all-terrain heritage.

Built for Dubai's Modern Adventurer

In Dubai, where style, power, and adventure intersect, the **Defender Carpathian Edition** is a rare and commanding presence. Equally at home in rugged terrain or at the valet stand, this SUV offers the versatility of a true off-roader with the luxury and power expected of the city's elite.

Now Available at Exotic Cars Dubai This 2023 Land Rover Defender P525 V8 Carpathian Edition in Matte Black with Tan leather interior is available for immediate delivery.
