2024 Ferrari SF90 Spider

The Apex of Ferrari Performance — Now Open to the Sky

The **2024 Ferrari SF90 Spider** is the ultimate expression of Ferrari's technical mastery, pairing **plug-in hybrid innovation** with the thrill of open-air driving. As the convertible version of the SF90 Stradale, it features the same incredible performance wrapped in an elegant retractable hardtop configuration. Finished in a show-stopping **Purple exterior** with a race-inspired **Black and Yellow leather interior**, this SF90 Spider is equal parts exotic art and electrified engineering.

Now available at **Exotic Cars Dubai**, this is a supercar designed not just to drive — but to dominate.

Purple Exterior — Unconventional and Unforgettable

Clad in a bold **Purple finish**, this SF90 Spider instantly stands apart from every Ferrari before it. The sculpted bodywork channels airflow with aerodynamic precision, while carbon fiber elements add lightweight aggression. With an active rear wing, sleek LED matrix headlamps, and twin exhausts flanking the rear diffuser, this Ferrari makes no secret of its intentions.

The retractable hardtop folds seamlessly in just 14 seconds, allowing you to switch from coupe to open-top performance at the push of a button — perfect for Dubai's coastal highways and night drives.

Black + Yellow Interior — Track-Inspired Luxury

Inside, the **Black leather interior** is accented by vivid **Yellow stitching, seat inserts, and contrast details**, creating a cabin that's both focused and visually electrifying. Racing-style bucket seats, carbon fiber trim, and the futuristic curved digital display immerse the driver in a cockpit that feels as much like a fighter jet as a road car.

Touch-sensitive controls on the F1-inspired steering wheel, haptic toggles, and minimalist center console give the interior a clean, high-tech aesthetic that reflects the SF90's forward-thinking performance.

Hybrid V8 Powertrain — Ferrari's Most Powerful Road Car

At its core lies a **4.0-liter twin-turbocharged V8**, paired with three electric motors, producing a combined **986 horsepower (1,000 CV)**. Power is sent to all four wheels through an **8-speed dual-clutch transmission**, launching the SF90 Spider from **0 to 100 km/h in just 2.5 seconds**, with a top speed of over **340 km/h**.

Drive modes include **eDrive, Hybrid, Performance**, and **Qualify**, allowing you to switch from pure electric cruising to full-throttle hypercar response — all with precision, speed, and signature Ferrari emotion.

Built for Dubai's Supercar Culture

From the boulevards of Downtown to the mountain roads of Jebel Hafeet, the **SF90 Spider** delivers a level of performance, design, and presence that redefines what a modern supercar should be. Its **Purple exterior** and **Black + Yellow interior** create a uniquely bold spec that stands out in any gathering of the world's finest cars.

Now Available at Exotic Cars Dubai Discover the **2024 Ferrari SF90 Spider**, finished in **Purple with a Black and Yellow interior**, now available for viewing at our luxury showroom.
