2022 Ferrari SF90 Stradale

Ferrari's First Plug-In Hybrid Supercar — Track-Bred, Road-Ready, Electrifying

The **2022 Ferrari SF90 Stradale** is not just another supercar — it's a historic leap forward for Maranello. As Ferrari's first plug-in hybrid V8, it represents the pinnacle of performance, design, and future-ready engineering. Finished in the iconic **Rosso Corsa Red exterior** and paired with a luxurious **Tan leather interior**, this SF90 is further enhanced by rare **carbon fiber interior and exterior packages**, making it a collector-grade build.

Now available at **Exotic Cars Dubai**, this SF90 offers blistering speed, technical innovation, and timeless Italian style — crafted for those who refuse to compromise.

Iconic Red Exterior with Carbon Fiber Accents

The SF90 Stradale's bold **Red paintwork** pays tribute to Ferrari's racing heritage, while its sculpted aerodynamic form pushes performance into the future. This example is equipped with the **carbon fiber exterior package**, including lightweight carbon accents on the front splitter, rear diffuser, side skirts, mirror caps, and engine bay — all of which reduce weight and elevate the car's motorsport aesthetic.

Its low stance, aggressive LED headlamps, floating rear wing, and quad exhaust outlets signal a machine engineered for aerodynamic dominance at high speeds.

Tan Leather Cabin with Carbon Fiber Trim

Inside, the **Tan leather interior** creates a stunning contrast against the red bodywork — classic and luxurious. But this is not just a refined cockpit — it's a high-tech command center built around the driver.

This SF90 features the **carbon fiber interior package**, which includes carbon door panels, dashboard inserts, steering wheel, center console, and paddle shifters. Every detail is designed to reduce weight and increase tactile connection with the car. The fully digital instrument cluster, haptic-touch controls, and F1-inspired steering wheel bring Formula 1 heritage into the palm of your hand.

V8 Hybrid Powertrain – Unrivaled Speed

The SF90 Stradale is powered by a **4.0-liter twin-turbocharged V8 engine**, paired with three electric motors, producing a combined **986 horsepower (1,000 CV)**. This astonishing output launches the car from **0 to 100 km/h in just 2.5 seconds**, with a top speed of **340 km/h**.

Thanks to its advanced all-wheel-drive system and cutting-edge torque vectoring, the SF90 offers incredible grip, control, and cornering precision — whether on the street or the track. Modes like **eDrive**, **Hybrid**, and **Qualify** allow you to tailor the experience, from silent EV cruising to full-throttle performance.

The Future of Ferrari — Delivered Today

The **2022 SF90 Stradale** is a revolutionary chapter in Ferrari's legacy. With its hybrid drivetrain, aggressive carbon styling, and signature Ferrari craftsmanship, it embodies the past, present, and future of performance in one bold package.

Now Available at Exotic Cars Dubai Explore the **2022 Ferrari SF90 Stradale**, finished in **Red** with a **Tan interior**, complete with **carbon fiber interior and exterior packages** — now available for viewing at our flagship showroom.
