2025 Range Rover Vogue Autobiography P530 LWB

First-Class Comfort. Unmatched Presence. Executive Power.

The **2025 Range Rover Vogue Autobiography P530 LWB** is the epitome of modern British luxury, blending refined design with commanding performance and long-wheelbase comfort. Finished in a sleek **Black exterior** and appointed with a rich **Tan leather interior**, this model is crafted for those who demand the highest level of sophistication, both behind the wheel and from the rear seat.

Now available at **Exotic Cars Dubai**, this flagship SUV comes fully equipped with **rear entertainment screens, rear executive leg-rest seating,** and a stunning **panoramic glass roof** — the perfect fusion of power and prestige.

Black Exterior — Bold Elegance, Redefined

The **Black paint finish** enhances the Range Rover's signature floating roofline, flush door handles, and minimalist design language. With 23-inch polished alloy wheels, LED digital headlights, and an unmistakable silhouette, this long-wheelbase Autobiography makes a refined yet bold statement in any environment — from city streets to resort entrances.

Subtle chrome accents and a gloss black contrast roof add to its sophisticated profile, making it as visually commanding as it is luxurious.

Tan Leather Interior — Executive Sanctuary

Step inside and experience the definition of contemporary luxury. The **Tan leather cabin** is warm and inviting, featuring open-pore wood trim, perforated semi-aniline leather, and satin metal detailing. Every element is handcrafted to create a serene environment.

Rear passengers enjoy the **Executive Class Seating** package, complete with **electrically deployable leg rests**, heated and ventilated massage seats, and fully adjustable armrests. Dual **rear entertainment screens** provide an immersive experience with access to streaming, navigation, and connectivity features, while fold-down leather-trimmed trays enhance productivity on the go.

Above, a **full-length panoramic roof** floods the cabin with natural light by day and creates a stargazing lounge by night.

P530 V8 Performance with LWB Comfort

Under the hood lies the powerful **4.4-liter twin-turbocharged V8**, producing **523 horsepower** and **750 Nm of torque**, delivering effortless acceleration and highway cruising. The **long-wheelbase platform** enhances ride smoothness, while **Dynamic Air Suspension** and **All-Wheel Steering** ensure grace and agility across every surface.

Whether navigating Downtown Dubai or cruising to the desert, the Vogue Autobiography LWB adapts seamlessly to every journey with poise and power.

Tailored for Dubai's Luxury Lifestyle

Designed for business leaders, diplomats, and discerning families, the **2025 Range Rover Autobiography P530 LWB** blends elite craftsmanship with everyday usability. With its **Black exterior**, luxurious **Tan interior**, rear leg-rest seats, entertainment, and panoramic views, it's the perfect SUV for Dubai's urban sophistication and weekend retreats.
