2024 Lamborghini Urus Performante

Pure Power. Lightweight Agility. The Super SUV, Reinvented.

The **2024 Lamborghini Urus Performante** redefines the super SUV segment with increased power, reduced weight, and motorsport-inspired aerodynamics. Finished in an electrifying **Giallo Yellow exterior** over a focused **Black interior**, this Urus is bolder, sharper, and faster than ever — built for drivers who demand Lamborghini performance without compromise.

Now available at **Exotic Cars Dubai**, this Urus Performante stands as a true embodiment of power, presence, and prestige — both on-road and off.

Yellow Exterior — Designed to Dominate

Draped in a vivid **Yellow paint finish**, the Urus Performante delivers instant visual impact. Lightweight **carbon fiber elements** on the front splitter, hood vents, side skirts, rear diffuser, and roof spoiler not only enhance downforce but add aggressive styling contrast.

With black 23-inch forged alloy wheels, signature Y-shaped LED lighting, and a lowered stance thanks to its sport-tuned suspension, this Urus leaves no doubt about its supercar lineage — even as an SUV.

Black Interior — Track-Focused Luxury

Inside, the cabin is a blend of **Black Alcantara and leather**, accented with **Performante badging**, carbon fiber trim, and contrast stitching that reflects Lamborghini's racing DNA. The interior is minimalist yet luxurious — prioritizing the driver with a flat-bottom steering wheel, digital cockpit, and Lamborghini's signature hexagonal design language.

Optional features such as racing bucket seats, red contrast stitching, and forged composite interior panels bring motorsport energy into a daily driving environment.

Performance — Lighter, Faster, Sharper

At its core lies the same **4.0-liter twin-turbocharged V8**, now tuned to produce **657 horsepower** and **850 Nm of torque**. This allows the Urus Performante to sprint from **0 to 100 km/h in just 3.3 seconds**, with a top speed of **306 km/h** — putting it in supercar territory.

Re-engineered with a **47 kg weight reduction**, **recalibrated suspension**, **tighter chassis dynamics**, and an exclusive **Rally drive mode**, this Urus is not just quicker — it's sharper, more agile, and far more engaging behind the wheel.

Built for Dubai's High-Performance Lifestyle

From the palm-lined roads of Jumeirah to the desert highways beyond, the **Urus Performante** is the ultimate SUV for Dubai's supercar culture. Its **Yellow exterior** demands attention, while the **Black interior** surrounds the driver with focused luxury and relentless energy — an ideal blend for the bold and ambitious.
