## 1995 Ferrari F355 Spider

### The Golden Era of Ferrari. Open-Top Emotion. Collectible Purity.

The **1995 Ferrari F355 Spider** is a celebration of Ferrari's most evocative era — a time when analog driving dynamics, open-gate shifters, and naturally aspirated V8s defined the soul of a true sports car. As the first Ferrari to feature a fully automated soft-top roof, the F355 Spider blends open-air freedom with classic Italian design and raw performance.

Finished in a rare and commanding **Black exterior** over a **Black leather interior**, this example represents pure 1990s Ferrari heritage — now available at **Exotic Cars Dubai**.

### Exterior — Subtle, Sleek, and Timeless in Black

The **Black paintwork** accentuates the F355's aerodynamic, Pininfarina-designed body, with elegant side strakes, sculpted bumpers, and a naturally flowing silhouette that remains as stunning today as it was in Maranello's design studio in the '90s. Pop-up headlights, a flat front fascia, and quad circular taillights round off a design that's both aggressive and beautiful.

The manual-folding **black soft-top roof** disappears neatly behind the seats, revealing the Spider's perfect proportions in convertible form.

### Interior — A Driver's Cockpit, Unfiltered

Step into a focused, purpose-built **Black leather cabin**, where the absence of digital distractions makes room for driving purity. The classic **open-gated 6-speed manual transmission**, three-spoke Ferrari steering wheel, and analog instrument cluster are tactile reminders of an era when connection came before technology.

Every surface — from the leather-wrapped dashboard to the sport bucket seats — is designed to immerse the driver in a mechanical, emotional, and responsive driving experience.

### V8 Performance — Naturally Aspirated Perfection

Powering the F355 Spider is a **3.5-liter V8**, producing **375 horsepower** and revving to an exhilarating **8,250 rpm**. It accelerates from **0 to 100 km/h in 4.7 seconds**, with an unforgettable soundtrack that defines Ferrari's high-revving heritage.

The **6-speed gated manual gearbox**, combined with a mid-engine layout and race-derived suspension, creates an agile, balanced, and highly engaging supercar — one that rewards skill and sensitivity.

### **A True Collector's Ferrari**

The **F355 Spider** is widely regarded as one of the best-balanced Ferraris ever made — a car that bridges the analog and modern eras with elegance and purpose. With its **Black on Black color scheme**, proper manual transmission, and open-top format, this example is a rare opportunity to own a piece of Ferrari history that continues to rise in value and appreciation.

### **Now Available at Exotic Cars Dubai**
