2025 Land Rover Defender 110 Octa First Edition V8

The Apex of Adventure. Built to Conquer. Refined to Impress.

The **2025 Land Rover Defender 110 Octa First Edition V8** redefines rugged capability with supercharged performance and bespoke detailing. This isn't just a Defender — it's a high-performance, first-edition luxury 4x4 designed for trail dominance and city prestige. Finished in a menacing **Matte Black exterior** with a fully outfitted **Black carbon-trimmed interior**, it's a bold declaration of utility and style.

Now available at **Exotic Cars Dubai**, the Defender Octa First Edition V8 is made for those who seek power, prestige, and premium off-road adventure in one unstoppable package.

Exterior — Matte Black Muscle with First Edition Details

The **Matte Black paintwork** transforms the Defender into a stealth icon. It's muscular, modern, and unapologetically bold. Blacked-out trims, flared wheel arches, a revised performance front bumper, and First Edition badging enhance its aggressive stance.

Sitting on 22-inch gloss black alloy wheels and fitted with quad exhausts and dynamic LED lighting, this Defender 110 Octa commands attention — from downtown Dubai to desert dunes.

Interior — Carbon-Fiber Craftsmanship, Full Black Ambiance

Inside, the cabin is wrapped in a premium **Black leather and Alcantara environment**, with extensive **carbon fiber interior trim** throughout the dashboard, center console, and door panels. Unique First Edition accents, illuminated treadplates, and contrast stitching elevate the sense of exclusivity.

The cockpit is tech-forward with a **Pivi Pro infotainment system**, full digital display, and intuitive off-road controls. A **panoramic sunroof** opens the cabin to natural light, enhancing the contrast between luxury and landscape.

Performance — Supercharged V8, Defender Strength

Under the hood is a **5.0-liter supercharged V8**, delivering **up to 600+ horsepower** and engineered for enhanced responsiveness, acceleration, and dynamic handling. The Octa variant includes high-performance suspension, Brembo brakes, and reinforced chassis tuning for extreme capability.

With advanced **Terrain Response 2**, **adaptive dynamics**, and active electronic differentials, it transitions from urban roads to unpaved trails effortlessly — all with the confidence and control expected from Land Rover's flagship off-roader.

Built for Dubai's Terrain and Taste

In a city where desert exploration meets metropolitan excellence, the **Defender 110 Octa First Edition V8** is the perfect luxury SUV. With its **Matte Black exterior**, stealth **Black carbon-trimmed interior**, **sunroof**, and unstoppable V8 power, this is the vehicle for those who command attention — whether arriving at a rooftop valet or conquering rugged terrain.
