2024 Lamborghini Revuelto

The Future of V12 Power. Electrified Brilliance. Designed to Shock.

The **2024 Lamborghini Revuelto** marks the beginning of a new era for the raging bull — the brand's **first HPEV (High-Performance Electrified Vehicle)**, delivering mind-bending performance while preserving the legacy of the naturally aspirated V12. Finished in an ultra-rare **Blu Glauco exterior** and paired with a bespoke **Tiffany Blue and Black interior**, this Revuelto is as bold as it is groundbreaking.

Now available at **Exotic Cars Dubai**, this is not just a supercar — it's a glimpse into the future of hyper-performance.

Exterior — Blu Glauco Brilliance with Aerodynamic Authority

The **Blu Glauco paintwork** glows with an otherworldly sheen, bringing an exotic contrast to the Revuelto's ultra-angular, jet-fighter-inspired silhouette. The Y-shaped DRLs, sharp aerodynamic fins, sculpted air channels, and **massive rear wing** all contribute to its aggressive yet futuristic aesthetic.

Carbon fiber body elements — including the **front splitter, side skirts, rear diffuser, and engine bay** — reinforce its track-built DNA while reducing weight and improving airflow. Every angle is engineered for both beauty and brutal efficiency.

Interior — Tiffany Blue & Black with Carbon Accents

Step inside the cabin and you're greeted by a breathtaking combination of **Tiffany Blue and Black leather and Alcantara**, handcrafted with Lamborghini's signature attention to detail. The **monocoque tub and dashboard panels** feature exposed **carbon fiber**, adding a race-inspired feel to the futuristic space.

The cockpit is equipped with three digital displays — a central 8.4" touchscreen, a 12.3" driver display, and a passenger-side 9.1" screen — putting all performance, media, and co-pilot functions at your fingertips. This interior is bespoke, bold, and perfectly Lamborghini.

Powertrain — V12 + Hybrid: The New Raging Bull

At its core, the Revuelto is powered by a **6.5-liter naturally aspirated V12**, paired with **three electric motors**, producing a combined **1,001 horsepower**. It rockets from **0 to 100 km/h in just 2.5 seconds**, with a top speed exceeding **350 km/h** — making it the most powerful Lamborghini ever made.

The all-new **8-speed dual-clutch transmission**, mounted transversely behind the engine, enables lightning-fast shifts, while torque vectoring and e-axle drive ensure traction and agility like never before.

With 13 drive modes including **Città (EV mode)**, **Strada**, **Sport**, and **Corsa**, the Revuelto adapts to your mood — whether gliding through Dubai silently or unleashing its full fury on the highway or track.

Designed for Dubai's Next Generation of Collectors

From the towers of Downtown to the desert roads of Al Qudra, the **Lamborghini Revuelto** represents the next chapter of Italian supercar mastery. With its **Blu Glauco exterior**, **Tiffany Blue & Black interior**, and performance-enhancing **carbon fiber cockpit**, this isn't just a hypercar — it's an instant icon.

Now Available at Exotic Cars Dubai

Explore the **2024 Lamborghini Revuelto**, finished in **Blu Glauco with Tiffany Blue and Black interior**, and full **carbon interior trim**, now available for private viewing.
