2023 Lamborghini Huracán Sterrato

Off-Road Supercar. V10 Power. The Rebel of the Raging Bull Lineup.

The **2023 Lamborghini Huracán Sterrato** redefines what it means to drive a supercar. It's raw, loud, and built to conquer more than just tarmac. Designed to go where no Lamborghini has gone before — dirt, gravel, sand — the Sterrato combines the DNA of the Huracán with all-terrain capability.

Finished in a striking **White exterior** with a bold **Black and Green interior**, this Sterrato is for those who don't follow roads — they make their own. Now available at **Exotic Cars Dubai**, this is Lamborghini unleashed, off the leash.

Exterior — Rugged in White, Ready for Anything

The **White exterior** gives the Sterrato a clean, high-contrast canvas that makes its rugged upgrades stand out even more. Distinctive features include:

1. Raised ground clearance
2. Flared wheel arches with integrated mudguards
3. Front LED light bars
4. Matte black skid plates
5. Roof rails and optional roof scoop

Rolling on all-terrain tires and rally-style wheels, the Sterrato's off-road stance is unmistakable — a Lamborghini like no other, designed for dunes as much as city streets.

Interior — Black + Green with Tactical Purpose

Inside, the cabin is finished in **Black Alcantara** with **Green stitching and accents**, offering a sporty, tactical feel. Carbon fiber inserts, lightweight sport seats, and exclusive Sterrato badging reinforce the car's limited-edition status.

The driver-focused cockpit includes Lamborghini's **digital instrumentation with off-road modes**, pitch and roll indicators, and custom driving profiles for low-grip surfaces.

This is not just a Huracán with ground clearance — it's a cockpit built for control across every terrain.

Performance — Naturally Aspirated, Reimagined

Powered by a **5.2-liter naturally aspirated V10**, the Sterrato produces **602 horsepower** and **560 Nm of torque**. With **all-wheel drive**, a recalibrated **LDVI system**, and **7-speed dual-clutch transmission**, it accelerates from **0–100 km/h in 3.4 seconds**.

More importantly, it delivers performance where no supercar dares to go — thanks to revised suspension, underbody protection, and optimized torque distribution for off-road agility.

Built for Dubai's Adventurous Elite

From urban edge to desert escape, the **Huracán Sterrato in White with Black and Green interior** is engineered for those who want exclusivity, capability, and pure fun — without limits. Whether on the dunes of Al Faya or the roads of Downtown, this is the Lamborghini that does it all.

Now Available at Exotic Cars Dubai
