2024 Lamborghini Urus Performante

Sharper. Lighter. Wilder. The Super SUV, Unleashed.

The **2024 Lamborghini Urus Performante** redefines what an SUV can be — lighter, faster, and more visceral than ever before. Designed to blur the line between supercar and sport utility, the Performante is engineered for those who want raw Lamborghini DNA in a form that dominates every surface — from Sheikh Zayed Road to mountain switchbacks.

Finished in a jaw-dropping **Verde Scandal** over a race-inspired **Black interior** with **Yellow-stitched leather seats** and **carbon fiber detailing**, this is the most aggressive iteration of the Urus yet.

Now available at **Exotic Cars Dubai**, it's built for drivers who demand presence, performance, and pure adrenaline.

Exterior — Verde Scandal with Carbon Muscle

The **Verde Scandal exterior** is unmistakably Lamborghini — loud, daring, and aerodynamic. Unique to the **Performante**, the body features extensive **carbon fiber components**, including:

1. Carbon fiber front splitter and air intakes
2. Carbon fiber rear diffuser and spoiler
3. Carbon fiber hood and mirror caps

Lightweight 22-inch forged wheels, wider tracks, and a lowered ride height give the SUV a more planted, athletic stance. A new titanium **Akrapovi? exhaust system** delivers a deeper, more aggressive soundtrack worthy of the badge.

Interior — Black Alcantara with Yellow Stitching & Carbon Trim

The cabin is pure race-inspired luxury. The **Black Alcantara and leather interior** is elevated by **Yellow contrast stitching**, echoing Lamborghini's performance colorway with flair. The dashboard, center console, and doors are trimmed in **exposed carbon fiber**, reinforcing the Performante's lightweight mission.

Features include a digital cockpit with 3D graphics, **Lamborghini Infotainment System III**, and multiple drive modes including **Rally Mode** — exclusive to the Performante for off-road performance with maximum drift control.

Performance — V8 Power, Track-Tuned Handling

Under the hood lies a **4.0-liter twin-turbocharged V8**, tuned to produce **666 horsepower** and **850 Nm of torque** — propelling the Urus Performante from **0–100 km/h in just 3.3 seconds**. Lighter by 47 kg compared to the standard Urus, it also features recalibrated suspension and torque vectoring for sharper handling and quicker response.

All-wheel drive, rear-wheel steering, and active aerodynamics allow it to hug corners like a supercar while offering SUV practicality and commanding road height.

Crafted for Dubai's Most Fearless Drivers

The **2024 Urus Performante** in **Verde Scandal** with a **Black interior, Yellow stitching, and carbon fiber exterior and interior upgrades** is the ultimate statement of Lamborghini performance — tailored for those who lead from the front, every time.

Now Available at Exotic Cars Dubai

Discover the **2024 Lamborghini Urus Performante**, finished in **Verde Scandal** with **carbon fiber options, Black and Yellow interior**, and track-ready performance — now on display.
