2020 Ferrari GTC4Lusso T

Everyday Ferrari. Twin-Turbo V8. Grand Touring, Redefined.

The **2020 Ferrari GTC4Lusso T** redefines the grand touring experience — combining a four-seat, shooting brake layout with the heart and soul of a turbocharged Ferrari. Designed for drivers who demand daily usability without sacrificing excitement, this Lusso T is finished in a full **Black exterior and interior**, paired with **carbon fiber detailing throughout**, creating a stealth look with maximum presence.

Now available at **Exotic Cars Dubai**, this is where performance meets practicality — without compromise.

Exterior — Blacked-Out GT Brilliance

The **Black exterior** enhances the GTC4Lusso T's long, sculpted proportions and aggressive road stance. Its distinctive shooting brake silhouette and quad taillights make it instantly recognizable as a modern Ferrari GT.

Equipped with **carbon fiber exterior upgrades** including side skirts, front splitter, mirror caps, and rear diffuser, this Lusso T not only looks more dynamic — it's lighter and sharper, too. Optional forged wheels and red brake calipers further add to its performance aesthetic.

Interior — Black Leather with Carbon Fiber Accents

The cabin is finished in **Black leather and Alcantara**, wrapped around Ferrari's dual-cockpit layout — separating driver and passenger zones with purposeful elegance. **Full carbon fiber interior trim** spans the dashboard, central console, paddle shifters, and door inserts, adding to the car's focused, motorsport-inspired feel.

Advanced tech includes a 10.25" touchscreen infotainment system, digital passenger display, and multi-zone climate control — all while maintaining a clean, driver-focused layout.

Performance — Twin-Turbo V8 Precision

Power comes from a **3.9-liter twin-turbocharged V8**, delivering **610 horsepower** and **760 Nm of torque** through the rear wheels via a 7-speed dual-clutch transmission. The GTC4Lusso T accelerates from **0–100 km/h in just 3.5 seconds**, with agile, rear-wheel-biased dynamics and Ferrari's renowned **Side Slip Control** system.

Lighter and more responsive than the V12 version, the T offers sharper steering, reduced weight, and a more dynamic drive — ideal for both city driving and spirited weekend escapes.

Built for Dubai's Grand Touring Elite

Whether pulling up to a beachfront brunch or cruising through long desert stretches, the **Ferrari GTC4Lusso T in Black with carbon fiber upgrades** is the ultimate Ferrari for those who desire performance, luxury, and daily usability — all in one beautifully sculpted machine.

Now Available at Exotic Cars Dubai
