2023 Ferrari SF90 Stradale

Hybrid Hypercar Power. Everyday Ferrari Usability. Pure Maranello Innovation.

The **2023 Ferrari SF90 Stradale** stands at the pinnacle of Ferrari engineering — the first plug-in hybrid V8 in the marque's history and the most powerful road-going Ferrari ever produced. Finished in iconic **Red with a Black and Red leather interior** and a full **carbon interior package**, this SF90 fuses race-bred technology with unmistakable design.

Now available at **Exotic Cars Dubai**, this is the future of Ferrari — ready for the road today.

Exterior — Rosso Corsa with Aerodynamic Purpose

Draped in classic **Rosso Corsa Red**, the SF90 Stradale showcases sculpted aerodynamic lines, a low-slung stance, and active aero components designed for performance. Features include:

1. Aggressive front splitter and side blades
2. Quad tailpipes and rear diffuser
3. Flying buttresses and active rear wing
4. Optional carbon fiber exterior elements (diffuser, mirrors, side skirts)

Its futuristic design cues are not just for show — every detail improves airflow, downforce, and cooling at hypercar speeds.

Interior — Black + Red with Carbon Racing Focus

Step into a cockpit built for the track, dressed in **Black leather and Alcantara** with **Red contrast stitching and inserts** for dramatic contrast. The **carbon fiber interior package** includes:

1. Carbon fiber dashboard and center console
2. Carbon steering wheel with LED shift lights
3. Carbon door panels and paddle shifters

A full digital instrument cluster, head-up display, and driver-centric layout immerse you in a Formula 1-inspired driving experience — refined for the road, but built for precision.

Performance — Electrified V8, 1,000 Horsepower

At the heart of the SF90 is a **4.0-liter twin-turbo V8** paired with **three electric motors**, producing a total of **986 horsepower (1,000 CV)**. Key performance specs:

1. **0–100 km/h in just 2.5 seconds**
2. **0–200 km/h in 6.7 seconds**
3. **Top speed: 340 km/h**
4. E-Drive mode for silent city cruising

Power is sent to all four wheels — a first for a Ferrari mid-engine model — with advanced **torque vectoring**, **side slip control**, and **eManettino drive modes** offering razor-sharp control across all surfaces.

Designed for Dubai's Fast Lane

Whether sprinting down Sheikh Zayed Road or displayed at the entrance of a five-star hotel, the **2023 SF90 Stradale in Red with a Black and Red carbon interior** turns every drive into an event. It's Ferrari's boldest leap into the future — and a must-have for collectors and drivers alike.

Now Available at Exotic Cars Dubai
