2025 Rolls-Royce Spectre

All-Electric Majesty. Silent Power. The Future of Rolls-Royce Has Arrived.

The **2025 Rolls-Royce Spectre** is the brand's first fully electric ultra-luxury coupe — designed with zero compromise, zero noise, and infinite presence. Finished in a deep **Black exterior** over a bespoke **Tiffany Blue interior**, this Spectre delivers Rolls-Royce refinement with next-generation technology, creating an experience that is as revolutionary as it is regal.

Now available at **Exotic Cars Dubai**, the Spectre is not just a new model — it's a new beginning.

Exterior — Black, Sculpted and Silent

The **Black finish** intensifies the Spectre's imposing fastback design. With a coupe profile reminiscent of the Wraith, but sharper, more aerodynamic, and entirely electric, this car turns heads in complete silence.

1. Pantheon grille (illuminated) with aero-optimized vanes
2. Full-length LED light bar and starlight-inspired rear lamps
3. 23-inch alloy wheels (largest ever fitted to a Rolls-Royce)
4. Graceful fastback silhouette with two-door grand tourer proportions

Every line and surface has been digitally sculpted — not only for beauty, but for aerodynamic efficiency.

Interior — Tiffany Blue Tranquility

Step into a futuristic sanctuary dressed in exquisite **Tiffany Blue leather**, elevated by traditional **Black accents** and the very latest in digital craftsmanship.

Interior highlights include:

1. Illuminated **Starlight Doors** and **Starlight Headliner**
2. Bespoke analog clock and Spirit of Ecstasy rotary controller

3. Fully digital interface powered by **SPIRIT software architecture**
4. Rear lounge seating with high-grade lambswool carpeting
5. Bespoke audio system designed specifically for electric silence

It is not simply luxurious — it is ethereal.

Performance — Electric Power, Rolls-Royce Stillness

Powered by a fully electric drivetrain, the Spectre delivers **584 horsepower** and **900 Nm of torque**, accelerating from **0–100 km/h in just 4.5 seconds** — effortlessly, and almost silently.

1. Dual-motor all-wheel-drive system
2. Estimated range: **500+ kilometers** (WLTP)
3. Planar suspension system with predictive road scanning
4. Zero-emission, whisper-quiet experience

It glides, not drives. And it redefines what it means to travel.

Designed for Dubai's Visionaries

With its **Black exterior**, radiant **Tiffany Blue interior**, and zero-emissions presence, the **2025 Rolls-Royce Spectre** is built for those who lead the future — not follow it. It's perfect for the city of innovation, luxury, and ambition.

Now Available at Exotic Cars Dubai

Explore the **2025 Rolls-Royce Spectre**, finished in **Black with a Tiffany Blue interior**, now available for private viewing at our ultra-luxury electric showroom.
