2025 Ferrari 296 GTS

Exotic Emotion. Electrified Elegance. The Future of the Mid-Engine Ferrari.

The **2025 Ferrari 296 GTS** redefines open-top performance through its revolutionary plug-in hybrid V6 engine and sculptural design. Finished in a striking **Purple exterior** and upholstered with an artistic **Tan and Yellow interior**, this GTS is elevated by a full **carbon fiber interior and exterior package**, delivering an exhilarating blend of futuristic engineering and handcrafted style.

Now available at **Exotic Cars Dubai**, this convertible Ferrari embodies the new era of performance without compromise.

Exterior — Artistic Performance in Purple

The **bespoke Purple finish** gives this 296 GTS a deeply expressive, almost iridescent presence. With every contour designed for aerodynamic mastery, this Ferrari is as much a sculpture as it is a machine.

Exterior features include:

1. Retractable **hardtop roof**, deploys in 14 seconds
2. **Carbon fiber exterior package**: front splitter, side skirts, diffuser, and mirrors
3. Active aerodynamic wing integrated into the rear deck
4. Aero bridge between the buttresses for increased downforce
5. 20-inch forged wheels and carbon ceramic brakes
6. Slimline LED lighting and F1-inspired rear detailing

A head-turner on Sheikh Zayed Road, a beast on the track.

Interior — Tan + Yellow, with Carbon-Driven Craft

Inside, this 296 GTS fuses retro racing inspiration with cutting-edge materials. The **Tan leather** base is brought to life with **Yellow accents** and finished with a full **carbon fiber trim**, making this cabin as bold as it is bespoke.

Interior features include:

1. Racing bucket seats with yellow contrast stitching
2. Digital instrument cluster with wraparound display
3. Carbon fiber dashboard, doors, and center tunnel
4. Ferrari Manettino switch for drive modes
5. Minimalist layout with focus on driver connection
6. High-fidelity audio and climate control discreetly integrated

Every stitch and surface is tailored for the passionate driver.

Performance — Electrified V6 Power, 830 Horses

This is the first Ferrari V6 hybrid convertible — and it delivers blistering performance with thrilling control and eco-conscious technology.

1. **3.0-liter twin-turbo V6 engine + electric motor**
2. **830 horsepower, 740 Nm of torque**
3. **0–100 km/h in just 2.9 seconds**
4. Rear-wheel drive layout with eDrive mode for zero-emission cruising
5. 8-speed dual-clutch transmission
6. Plug-in hybrid with approx. 25 km electric-only range
7. Ferrari Dynamic Enhancer 2.0 and active rear wing

The GTS gives you open-sky freedom with next-gen supercar agility.

Built for Dubai's Sophisticated Collectors

From the private garages of Emirates Hills to the scenic coastal drives of Jumeirah, the **2025 Ferrari 296 GTS in Purple with Tan and Yellow** is made to stand out in every sense.
