2024 Lamborghini Urus Performante

Super SUV Redefined. Raw Power. Carbon Precision.

The **2024 Lamborghini Urus Performante** is the most aggressive, track-focused evolution of the world's first Super SUV. Draped in **Black exterior paint**, paired with a sporty **Black and Green interior**, and upgraded with **carbon fiber interior and exterior detailing**, this Urus isn't just a utility vehicle — it's a bull bred for speed and spectacle.

Now available at **Exotic Cars Dubai**, this Performante brings motorsport adrenaline to the world of ultra-luxury SUVs.

Exterior — Stealth Meets Aerodynamics

This Urus Performante in **deep gloss Black** boasts striking aerodynamic enhancements and unmistakable Lamborghini aggression.

Exterior highlights include:

1. Extensive **carbon fiber body elements** (hood, mirrors, splitter, diffuser, wheel arches)
2. Titanium Akrapovi? exhaust system with quad pipes
3. 22-inch forged lightweight wheels with green brake calipers
4. Redesigned front fascia with more aggressive intakes
5. Rear spoiler delivering increased downforce
6. Lightweight roof and carbon fiber tailgate
7. "Performante" badging and blacked-out Lamborghini script

It's leaner, sharper, and lower — ready to dominate any road.

Interior — Black and Green Racing Soul

The cabin is a fusion of exotic luxury and driver-focused purpose, defined by a two-tone **Black and Green Alcantara** theme and lightweight racing materials.

Interior features include:

1. **Carbon fiber interior trim** on dash, doors, and center console
2. Green contrast stitching and embroidered “Performante” branding
3. Bucket-style sport seats with Alcantara and leather upholstery
4. Lamborghini infotainment with performance telemetry
5. Multi-zone climate control and Bang & Olufsen premium sound system
6. Adjustable drive modes via Tamburo selector, including new **Rally Mode**

Every inch of the cabin reminds you this is no ordinary SUV.

Performance — The Apex Predator of SUVs

The Performante sheds weight and adds focus, bringing sharper handling, better aerodynamics, and more visceral performance than the standard Urus.

1. **4.0-liter twin-turbocharged V8**
2. **666 horsepower, 850 Nm of torque**
3. **0–100 km/h in just 3.3 seconds**
4. Lighter by 47 kg than base Urus
5. Adaptive air suspension with Rally mode for gravel/off-road
6. All-wheel drive with active torque vectoring
7. Carbon ceramic brakes for fade-free stopping power

It’s the fastest Urus ever — and a true Lamborghini through and through.

Built for Dubai’s High-Octane Lifestyles

From Sheikh Zayed Road to the mountain curves of Jebel Jais, the **2024 Urus Performante** is made for those who crave adrenaline and exclusivity — without compromising practicality.

Now Available at Exotic Cars Dubai

Make a bold statement with the most powerful and advanced Super SUV Lamborghini has ever built. The **Urus Performante in Black and Green** awaits its next driver.
