2007 Lamborghini Murciélago LP640

Raging Bull. Unfiltered Power. V12 Legend.

The **2007 Lamborghini Murciélago LP640** is a raw icon — a celebration of pure, analog supercar insanity. Presented in **Black over Black**, this menacing example of Sant'Agata's finest is a rare find for those who want the sound, soul, and silhouette of a true V12 Lamborghini before the digital age took over.

Now available at **Exotic Cars Dubai**, this LP640 is a living legend with collector-grade status and unmatched presence.

Exterior — Midnight Bull in Black

The **Black exterior** amplifies the LP640's razor-sharp lines, giving it a stealthy, brutalist appeal that few cars can match. This is the poster car of the early 2000s — low, wide, and brutally beautiful.

Exterior features include:

1. Sculpted carbon-fiber front and rear bumpers (LP640 design upgrade)
2. Angular air intakes and active rear spoiler
3. Vertical scissor doors — signature Lamborghini flair
4. Quad circular exhausts integrated into a central rear diffuser
5. 18-inch black multi-spoke alloy wheels
6. Bi-xenon headlights and LED taillights

From any angle, it's a threat on wheels.

Interior — Nero Leather with Track-Ready Minimalism

Step inside the **Black leather interior**, and you're surrounded by a cocoon of Alcantara, leather, and carbon-fiber minimalism. The LP640's cockpit is driver-focused and brutally analog.

Interior highlights include:

1. Leather-wrapped bucket seats with white contrast stitching
2. Flat-bottomed leather steering wheel
3. Classic analog gauge cluster with yellow backlit tachometer
4. Gated or E-Gear transmission tunnel (spec dependent)
5. Carbon fiber door panels and center console trim
6. Push-button starter with retro switchgear

It feels like a fighter jet — because it nearly is.

Performance — Naturally Aspirated V12 Madness

The LP640 isn't just fast. It's ferocious. The upgraded 6.5L V12 is one of Lamborghini's loudest, most visceral engines ever built — no filters, no turbos, just fury.

1. **6.5-liter naturally aspirated V12 engine**
2. **640 horsepower**, **660 Nm of torque**
3. **0–100 km/h in 3.4 seconds**
4. Top speed: 340+ km/h
5. Permanent all-wheel drive system
6. 6-speed manual or E-Gear transmission
7. Stiffened suspension and upgraded brakes over original LP580

It's the final chapter of unrestrained Lamborghini power before the modern era began.

A Supercar for the Brave

In a world of refined supercars, the **Murciélago LP640** remains a raw beast — especially in **Black on Black**. It's as much a driving event as it is a collector's item.

Now Available at Exotic Cars Dubai

Own a piece of raging history. This **2007 Lamborghini Murciélago LP640**, in Black over Black, is ready for its next bold owner.
