2019 Aston Martin DBS Superleggera V12, The Pinnacle of British Grand Touring

Unrivalled Luxury and Performance

Welcome to Exotic Cars Dubai, your top spot for the world's most sought-after supercars and luxury vehicles. We are excited to present this 2019 Aston Martin DBS Superleggera V12, a true blend of power, elegance, and engineering precision. This stunning grand tourer features a remarkable Pearl Silver exterior paired with a refined Beige interior, offering the perfect mix of classic British style and modern performance.

Incredible Power and Speed

At the heart of the DBS Superleggera is a hand-built 5.2-liter twin-turbocharged V12 engine. It produces 715 horsepower and 900 Nm of torque. This powerhouse lets the car accelerate from 0 to 100 km/h in just 3.4 seconds and achieve a top speed of 340 km/h. Its rear-wheel-drive system, adaptive damping suspension, and rear mechanical limited-slip differential provide an engaging yet stable driving experience, whether you're cruising down Dubai's boulevards or navigating winding mountain roads.

Exquisite Exterior Design

The Pearl Silver finish highlights the DBS's sculpted carbon fiber bodywork, creating a striking yet elegant presence. Notable design features include the bold hexagonal grille, full LED headlights, carbon fiber front splitter and rear diffuser, and 21-inch forged alloy wheels. The aerodynamic lines not only add visual appeal but also enhance high-speed stability, making this grand tourer both attractive and functional.

Luxurious and Handcrafted Interior

Inside, the Beige leather cabin showcases Aston Martin's dedication to craftsmanship. The hand-stitched leather seats offer exceptional comfort, and the carbon fiber trim alongside satin chrome accents creates a modern, performance-focused environment. A high-resolution infotainment display, premium audio system, and intuitive controls round out the luxurious, driver-oriented space.
