2025 Lamborghini Revuelto – The Ultimate Driving Machine

Unrivalled Luxury and Performance

Welcome to Exotic Cars Dubai, your premier destination for the world's most exclusive supercars and luxury vehicles. We are proud to present the 2025 Lamborghini Revuelto, a revolutionary V12 hybrid hypercar that represents the pinnacle of Italian engineering and design. This brand-new masterpiece features a captivating White and Ivory exterior paired with a Black interior, highlighting carbon fiber accents, advanced aerodynamics, and futuristic styling.

Incredible Power and Speed

The Lamborghini Revuelto redefines the boundaries of performance. It is powered by an all-new 6.5-liter naturally aspirated V12 engine combined with three electric motors, producing a combined output of an astonishing 1,001 horsepower. This hybrid powerhouse sprints from 0–60 mph in a mere 2.5 seconds, reaching a top speed of 218 mph. With four-wheel drive, active aerodynamics, and new e-gear hybrid architecture, the Revuelto delivers unmatched acceleration, control, and emotion — a true symphony of speed and innovation.

Exquisite Exterior Design

The White and Ivory finish accentuates the Revuelto's razor-sharp lines and dramatic proportions. The signature Y-shaped LED headlights, carbon fiber intakes, and aggressive rear diffuser give it a commanding, futuristic presence. The aerodynamic body design not only enhances performance but also reinforces Lamborghini's unmistakable DNA — bold, powerful, and sculpted for perfection.

Luxurious and Sophisticated Interior

Inside, the Black interior with Alcantara and leather delivers a fusion of luxury and performance. The fighter-jet-inspired cockpit, digital instrument cluster, and vertical center touchscreen immerse the driver in a world of cutting-edge technology. Lightweight materials, carbon fiber trim, and Lamborghini's attention to detail create an interior that's as thrilling as the performance it commands.
