2023 Ferrari SF90 Spider – The Ultimate Driving Machine

Unrivalled Luxury and Performance

Welcome to Exotic Cars Dubai, your premier destination for the world's most exclusive supercars and luxury vehicles. We are proud to present the breathtaking 2023 Ferrari SF90 Spider, an open-top hybrid hypercar that perfectly embodies the future of performance. This lightly used model features an extraordinary Pearl Yellow exterior paired with a sleek Black interior, enhanced by carbon fiber accents and Ferrari's world-renowned design language.

Incredible Power and Speed

The SF90 Spider is powered by a 4.0-liter twin-turbocharged V8 engine paired with three electric motors, producing a combined 986 horsepower (1,000 CV) and 590 lb-ft of torque. It catapults from 0–60 mph in an astonishing 2.5 seconds and reaches a top speed of 211 mph. The plug-in hybrid system delivers instantaneous torque, while the 8-speed dual-clutch transmission ensures seamless gear changes. Ferrari's eDrive modes and active aerodynamics make the SF90 Spider as versatile as it is ferocious.

Exquisite Exterior Design

The Pearl Yellow finish radiates vibrance and exclusivity, reflecting light in every curve of the Spider's sculpted body. Its retractable hardtop roof, carbon fiber aero kit, and Y-shaped LED lighting signature give it a futuristic yet elegant presence. Every line is optimized for aerodynamic efficiency, ensuring both performance and beauty in motion.

Luxurious and Sophisticated Interior

Inside, the Black leather and Alcantara interior combines minimalism with advanced technology. The driver-oriented cockpit features Ferrari's digital HD display, touch-sensitive steering wheel controls, and carbon fiber inserts throughout. The premium craftsmanship, paired with ergonomic design, provides a truly immersive driving experience whether on the road or track.
