2024 Land Rover Defender 90 P525 V8 Edition for Sale in Dubai

5.0L V8 Power and Dynamic Performance

The 2024 Land Rover Defender 90 P525 V8 Edition combines legendary off-road heritage with exceptional V8 performance. Powered by a 5.0-litre supercharged V8 engine, it produces between 500 and 600 horsepower. As a result, this compact yet powerful SUV delivers rapid acceleration and commanding road presence.

The automatic transmission ensures smooth gear shifts in all driving conditions. Moreover, the V8 tuning enhances responsiveness while maintaining everyday usability. Whether cruising on Sheikh Zayed Road or exploring beyond city limits, the Defender 90 performs with confidence.

With 42,000 kilometres, this vehicle remains in excellent condition and continues to reflect Land Rover's engineering strength.

Black Exterior with Iconic Defender Styling

Finished in sleek black, this Defender 90 P525 V8 Edition projects strength and refinement. The short wheelbase design gives it a bold and athletic stance. In addition, distinctive V8 badging and performance detailing set it apart from standard variants.

The muscular body lines, signature LED lighting, and elevated ground clearance reinforce its rugged character. Consequently, it stands out in both urban and off-road environments.

Premium Tan Interior with Modern Technology

Inside, the cabin features a luxurious Tan leather interior. This warm colour combination contrasts beautifully with the black exterior, creating a refined atmosphere. High-quality materials and precise stitching define the space.

Furthermore, advanced infotainment and driver assistance systems enhance convenience and safety. The supportive seating ensures comfort during long journeys, while the premium finish reflects true British craftsmanship.

GCC Specification with Warranty Until December 2027

This 2024 Defender 90 P525 V8 comes in full GCC specification. It also includes warranty coverage until December 2027, providing peace of mind for the next owner. Every element has been engineered for durability and performance.
