Overview — The Ultimate Aston Martin SUV Available in Dubai

The **2023 Aston Martin DBX 550** is the most powerful, most focused, and most exhilarating SUV ever to carry the famous Aston Martin wings — and this extraordinary example is now available at **Exotic Cars Dubai**. Finished in a breathtaking **Matt Green exterior** and loaded with a bespoke specification that includes a **panoramic roof**, **wood trim interior**, **Alcantara seats**, and **electric memory seats**, this DBX 550 is the definitive expression of British performance luxury. If you are searching for the finest exotic SUV for sale in Dubai, this is it.

Performance — 550 Horsepower of Pure Aston Martin

The DBX 550 is powered by a hand-built **4.0-litre twin-turbocharged V8 engine** producing a formidable **550 horsepower and 700 Nm of torque**. This potent powertrain catapults the DBX 550 from **0–100 km/h in just 4.3 seconds**, with a top speed of **291 km/h** — making it the fastest SUV ever produced by Aston Martin. Exclusive **AMR Pro chassis tuning**, a recalibrated nine-speed automatic gearbox, and 22-inch forged wheels deliver a driving experience that is supremely confident, precise, and utterly addictive on any road.

Exterior — Striking Matt Green Finish

This DBX 550 arrives in a **bespoke Matt Green exterior** — a bold, rare, and deeply individual colour choice that perfectly captures the adventurous spirit of the DBX. The satin finish absorbs light rather than reflecting it, giving the DBX 550's muscular, sculpted body an almost tactile depth that is simply impossible to replicate in standard gloss paint. Paired with **darkened trim**, **gloss black detailing**, and the DBX 550's sport-tuned stance, this is a vehicle that turns heads across every corner of Dubai.

Interior — Alcantara, Wood Trim & Electric Memory Seats

Inside, the DBX 550 is a masterclass in bespoke British craftsmanship. **Alcantara sports seats** with contrast stitching provide exceptional grip and comfort in equal measure, while the **electric memory seat function** ensures the perfect driving position is saved and recalled at the touch of a button. The **hand-finished wood interior trim** adds warmth and a genuinely luxurious character to the cabin, complementing the Alcantara beautifully. The **panoramic sunroof** opens the cabin to the sky, creating a bright, airy ambience that enhances every journey across the UAE.
