Overview — The World's Fastest SUV, Now in Dubai

The **2020 Bentley Bentayga Speed W12** holds one of the most remarkable titles in the automotive world — **the world's fastest production SUV**. This stunning example, presented in a dramatic **Onyx Black exterior**, is now available at **Exotic Cars Dubai**. Combining otherworldly performance with Bentley's legendary hand-crafted luxury, the Bentayga Speed represents the absolute summit of what a luxury SUV can be. For the buyer who demands the very best in Dubai's competitive luxury car market, this vehicle is without equal.

Performance — W12 Power Unleashed

The Bentayga Speed is powered by Bentley's magnificent **6.0-litre twin-turbocharged W12 engine**, producing a colossal **635 horsepower and 900 Nm of torque**. This exceptional powertrain launches the Bentayga Speed from **0–100 km/h in just 3.9 seconds**, on to a governed top speed of **306 km/h** — a figure that remains astonishing for a vehicle of this size. The **8-speed dual-clutch transmission** and Bentley's intelligent all-wheel-drive system deliver this performance with a seamlessness and composure that only a Bentley can provide.

Exterior — Commanding Presence in Black

In **Onyx Black**, the Bentayga Speed's bold, muscular proportions take on a menacing yet deeply refined character. The **Speed-specific bodywork** — featuring a unique front bumper, darkened matrix grille, and gloss black accents — sets this model apart from every other Bentayga in the range. It is a vehicle that commands immediate respect and admiration, whether navigating Dubai's city streets or arriving at the UAE's most exclusive destinations.

Interior — Alcantara, Panoramic Roof & Handcrafted Luxury

Inside, the Bentayga Speed showcases Bentley's unrivalled cabin craftsmanship. **Alcantara sports seats** with contrast stitching deliver both supreme comfort and a performance-oriented character unique to the Speed specification. The **panoramic glass sunroof** floods the cabin with natural light, creating an airy, spacious environment for all occupants. Every surface — from the hand-polished veneers to the diamond-knurled metal controls — reflects the hundreds of hours of skilled craftsmanship that go into every Bentley built at Crewe, England.
