Overview — Ferrari's Most Significant New Model in Decades

The **2024 Ferrari Purosangue** is, without question, the most significant, most anticipated, and most debated new Ferrari in a generation. As **Ferrari's first-ever four-door, four-seat, SUV-inspired model** — a category Ferrari resisted for decades before finally creating something entirely on its own terms — the Purosangue is a vehicle of enormous historical and collector significance. This exceptional example, finished in a **stunning Verde Green exterior**, is now available at **Exotic Cars Dubai**. With demand far exceeding supply and waiting lists stretching globally, this **rare, ready-to-deliver Purosangue** represents one of the most extraordinary Ferrari acquisition opportunities available anywhere in the UAE market today.

Performance — Ferrari's Glorious 6.5L Naturally Aspirated V12

While rivals in the luxury SUV segment have universally turned to turbocharged engines, Ferrari has done the unthinkable — fitting the Purosangue with a **6.5-litre naturally aspirated V12 engine** producing **725 horsepower at a sky-high 7,750 rpm** and **716 Nm of torque**. Mounted **behind the front axle** in a front-mid configuration for near-perfect weight distribution, this extraordinary engine drives all four wheels through the **8-speed dual-clutch transmission and Ferrari's PTU all-wheel drive system**, launching the Purosangue from 0–100 km/h in **3.3 seconds** with a top speed of **310 km/h**. The V12 exhaust note — rising to a naturally aspirated crescendo at full throttle — is unlike anything in the SUV segment and is a reminder, at every moment, that this is a **Ferrari before anything else**.

Exterior — Striking Verde Green on Ferrari's Groundbreaking Design

Ferrari's design team, led by Flavio Manzoni, has created in the Purosangue a body that is **unmistakably Ferrari** from every angle — long bonnet, wide haunches, flowing roofline, and a fastback rear that references the great Ferrari shooting brakes of the 1960s and 70s. In **Verde Green**, the Purosangue's dramatic proportions and aerodynamically sculpted surfaces take on a richness and depth that makes this colour one of the most beautiful and individual choices available on the model. The **suicide rear doors** — opening to a full 79 degrees — add a theatrical flourish to every arrival and departure, confirming that the Purosangue's designers conceived every detail with the drama and elegance befitting the **Ferrari name**.

Interior & Collectibility — Four-Seat Ferrari, Future Classic Status

Inside, the Purosangue delivers a **genuinely usable four-seat cabin** finished to the extraordinary standard of Ferrari's Tailor Made bespoke programme — sumptuous leather, hand-finished surfaces, and the brand's most advanced digital interface yet, featuring a **10.2-inch driver display, a central touchscreen, and dedicated rear passenger screens**. Ferrari has publicly committed to **limiting the Purosangue to no more than 20% of total annual production** — an extraordinary guarantee of rarity that, combined with the model's historical significance as Ferrari's first four-door car, makes the Purosangue a **compelling blue-chip collector's investment** whose value trajectory mirrors the most desirable Ferraris of the past fifty years.

Visit Exotic Cars Dubai — Secure Your Purosangue Today
