	Warranty	Available

Overview — A Rare Classic Ferrari Cabriolet in Dubai

The **1993 Ferrari Mondial T Cabriolet** is one of the most charming, most characterful, and most underappreciated classic Ferraris of the modern era — a genuine open-top, mid-engined Italian thoroughbred that was built in the great Maranello tradition during one of Ferrari's most celebrated decades. This beautiful example, presented in **iconic Rosso Corsa Red** and maintained in **excellent collector's condition**, is now available at **Exotic Cars Dubai**. With classic Ferrari values rising sharply across global auction markets, the Mondial T Cabriolet represents not only **a deeply pleasurable and engaging classic to own and drive**, but an increasingly compelling **collector's investment opportunity** in the UAE and wider Middle East market.

Performance — Mid-Engine V8 with Ferrari's Transverse Magic

The Mondial T's defining engineering achievement is its **transversely mounted 3.4-litre naturally aspirated V8 engine** — the 'T' in its name a direct reference to this pioneering layout — producing **300 horsepower** and driving the rear wheels through a **5-speed manual gearbox**. This configuration positioned the engine **ahead of the rear axle** for near-perfect weight distribution and a driving balance that rewarded skilled drivers with **communicative, rear-wheel-drive Ferrari feedback** in its most natural form. The free-revving V8 soundtrack, the tactile manual gearchange, and the **open-top sensory experience** combine to create a driving event that no modern car — however fast — can fully replicate. This is Ferrari at its most pure and most analogue.

Exterior — Rosso Corsa in Timeless Pininfarina Style

Penned by **Pininfarina** and introduced at the height of Ferrari's 1980s renaissance, the Mondial T Cabriolet's elegant, open-top body has aged with remarkable grace. In **Rosso Corsa** — the colour that has defined Ferrari's racing identity for over a century — every line, every vent, and every proportion of the Mondial's flowing design is presented with the warmth and vibrancy that only a truly classic Ferrari in red can deliver. The **power-operated soft top** folds neatly away to reveal a proper open-air cabriolet experience, while the **Testarossa-inspired side strakes** and quad round taillights are unmistakable period details that immediately identify this car's extraordinary Italian heritage to all who see it.

Collector's Gem — Classic Ferrari Investment in Excellent Condition

The **Ferrari Mondial T Cabriolet** occupies a fascinating position in the collector car market. Long overlooked in favour of the more celebrated Testarossa and 348, the Mondial T is now experiencing a **significant and sustained appreciation in value** as collectors recognise the rarity, the engineering sophistication, and the sheer character of this remarkable car. This example presents in **excellent condition** — a genuine rarity for a 30-year-old classic Ferrari in the Middle East — with its **Rosso Corsa paintwork, interior, soft top, and mechanicals** all preserved to a standard that reflects the care and passion of its custodians. For the collector seeking an entry point into the classic Ferrari market with genuine upside potential, this Mondial T Cabriolet is a **compelling and joyful choice**.
