Overview — The Pinnacle of British Luxury in White & Maroon

The **2023 Range Rover Vogue Autobiography P530 LWB** is the most prestigious, most powerful, and most comprehensively equipped luxury SUV that Land Rover has ever produced — a vehicle that stands at the very top of the British automotive establishment and defines the standard against which every other luxury SUV in the world is measured. This magnificent example, finished in **elegant White with a sumptuous Maroon interior**, is now available at **Exotic Cars Dubai**. The **long-wheelbase Autobiography P530 specification** represents an extraordinary convergence of commanding V8 performance, hand-crafted British luxury, and the class-leading rear-seat space that only the LWB platform can deliver — **the definitive Range Rover for those who accept no compromise** in Dubai's premium SUV market.

Performance — P530 Twin-Turbo V8, 530HP of Effortless Mastery

This Autobiography is powered by the **4.4-litre twin-turbocharged V8 engine** — the most powerful engine available in the fifth-generation Range Rover — producing **530 horsepower and 750 Nm of torque**. The **8-speed automatic transmission and permanent four-wheel drive** with Range Rover's legendary **Terrain Response 2 system** deliver 0–100 km/h in a composed **4.6 seconds**, yet with the absolute serenity and composure that defines the Range Rover character at its finest. The **Electronic Air Suspension with Terrain Response 2 and Road Presence Control** continuously adapts to every road surface, ensuring the Autobiography LWB glides across Dubai's roads and UAE highways with the effortless, magic-carpet quality of ride that has made the Range Rover name **synonymous with supreme luxury travel** across seven generations.

Exterior — Radiant White on the LWB Autobiography Silhouette

In **Fuji White**, the long-wheelbase Autobiography's **flush-surfaced, clean-sided body** achieves a luminous, regal quality that is perfectly in keeping with its flagship status. White on the Range Rover LWB is the colour of quiet, absolute confidence — a finish that allows the vehicle's **bold proportions, full-length panoramic roof, and Autobiography-exclusive brightwork** to command attention without resorting to drama. The **23-inch Autobiography alloy wheels, deployable door handles, matrix LED headlights, and Autobiography-exclusive exterior badging and chrome detailing** complete a presence that announces this vehicle's flagship status at every approach — turning heads across Dubai's most prestigious addresses with the effortless authority of **British luxury at its absolute finest**.

Interior — Maroon Leather, LWB Rear Sanctuary & Autobiography Craft

Step inside and the Autobiography LWB's **Maroon semi-aniline leather interior** creates an immediate sense of warmth, depth, and enveloping luxury that is wholly appropriate for the Range Rover flagship. The rich maroon tones — covering the seats, door panels, dashboard, and headliner — combine with **hand-finished veneer trim, brushed metal accents, and Autobiography embroidered headrests** to create a cabin of extraordinary beauty and refinement. The **long-wheelbase rear cabin** provides a genuinely exceptional amount of legroom, complemented by **executive rear seats with heating, cooling, massage, and full recline**. The **Meridian Signature Sound System, individual rear screens, and four-zone climate control** ensure that every journey in this magnificent vehicle is experienced as an occasion in its own right.
