Overview — One of 54 in the World, Now Available in Dubai

The **2013 BMW M3 DTM Champion Edition** is one of the most significant, most coveted, and most collectible limited-edition BMWs ever produced — a car built to celebrate **Bruno Spengler's 2012 DTM Championship title** and produced in a strictly limited run of just **54 examples worldwide**. This extraordinary example — bearing production number **11 of 54** — finished in a commanding **Matt Black exterior with a full carbon fibre interior**, is now available exclusively at **Exotic Cars Dubai**. With its documented motorsport provenance, **verified limited-edition status**, and a specification that cannot be replicated at any price, this M3 DTM Champion Edition represents **one of the most compelling BMW collector's opportunities** ever presented in the UAE and Middle East market.

DTM Heritage — Bruno Spengler's Championship Legacy

In 2012, **Bruno Spengler** drove BMW's return to the **Deutsche Tourenwagen Masters (DTM)** to its ultimate conclusion — claiming the **championship title in BMW's comeback season** and writing one of the most celebrated chapters in the marque's motorsport history. The M3 DTM Champion Edition was created by BMW M to honour this achievement, with each of the **54 examples individually numbered and certified**, referencing Spengler's **race number 7 and the 54-point championship margin** of victory. This is not simply a special-edition M3 — it is a **rolling monument to one of BMW's greatest motorsport victories**), a piece of German racing history that belongs in the most serious of private collections alongside the rarest and most significant BMWs ever produced.

Performance — The E92 M3's High-Revving V8 in Its Purest Form

The M3 DTM Champion Edition is built on the **E92 M3 platform** and powered by BMW M's legendary **4.0-litre naturally aspirated S65 V8 engine** — one of the greatest high-revving road car engines ever produced — generating **420 horsepower at 8,300 rpm** and driving the rear wheels through a **7-speed M DCT dual-clutch gearbox**. The S65 V8's **9,000 rpm redline**, its razor-sharp throttle response, and its extraordinary naturally aspirated soundtrack place it amongst the **finest M engines in BMW's entire history** — a character and purity of performance that no turbocharged successor has been able to fully replicate. In DTM Champion Edition specification, the M3 receives **DTM-specific chassis tuning and aerodynamic enhancements** that sharpen its dynamic responses to their absolute limit.

Exterior & Interior — Matt Black, Carbon & Championship Identity

The **Matt Black exterior** — unique to the DTM Champion Edition — is one of the most aggressive and visually striking finishes ever applied to a road-going BMW M3. The satin matte surface gives the M3's already purposeful body an intensity and presence that gloss paint cannot approach, while the **DTM Champion Edition-specific graphics, red M stripes, and Bruno Spengler signature livery elements** identify this car's extraordinary provenance at every glance. Inside, the **full carbon fibre interior package** — carbon dashboard, door inserts, centre console, and carbon bucket seats with DTM-specific upholstery — creates a cockpit of pure, uncompromised motorsport focus, with the **numbered plaque confirming No. 11 of 54** making every occupant acutely aware of the significance of where they are sitting.

Visit Exotic Cars Dubai — Secure This Collector's BMW Today
