2014 Mercedes-Benz SLS AMG Black Series for Sale in Dubai

A Rare AMG Black Series Icon

Discover this extraordinary **2014 Mercedes-Benz SLS AMG Black Series for sale in Dubai**, presented in unmistakable **Yellow** with a purposeful **Black interior**. Showing just **4,000 km**, this GCC-specification example represents one of the most celebrated performance cars ever created by Mercedes-AMG.

The SLS AMG Black Series takes the already distinctive SLS formula and pushes it towards a far more focused, motorsport-inspired character. From its dramatic gullwing doors and widened bodywork to its naturally aspirated V8 and extensive use of lightweight materials, the Black Series was engineered for enthusiasts seeking something considerably more specialised than a conventional grand tourer.

For collectors searching for a **Mercedes-Benz SLS AMG Black Series for sale in Dubai**, the remarkably low mileage, vibrant Yellow paintwork and carbon fibre specification make this an especially compelling example.

Striking Yellow Exterior with Carbon Fibre

The **Yellow exterior** ensures this SLS AMG Black Series has an unmistakable presence. Its long bonnet, low roofline, muscular rear proportions and iconic **gullwing doors** create one of the most recognisable silhouettes of the modern Mercedes-AMG era.

This example is enhanced by **carbon fibre exterior components**, reinforcing the track-focused character of the Black Series. The dark carbon elements contrast sharply with the Yellow bodywork and highlight the aggressive aerodynamic design.

The Black Series treatment gives the SLS an even more purposeful appearance, with wider proportions and performance-focused aerodynamic details distinguishing it from the standard SLS AMG.

Black Interior with Alcantara and Carbon Fibre

Inside, the **Black interior** continues the focused character of the exterior. This example features **Alcantara seats**, providing a motorsport-inspired environment appropriate for one of AMG's most serious performance models.

The cabin is further enhanced by **carbon fibre interior trim**, creating a direct visual connection with the lightweight components used across the exterior.

Rather than focusing solely on traditional luxury, the SLS AMG Black Series cockpit puts the emphasis firmly on the driving experience. The combination of Alcantara, carbon fibre and the low seating position creates an atmosphere that feels special before the engine is even started.

6.2-Litre Naturally Aspirated AMG V8

At the heart of the SLS AMG Black Series is its defining feature: a **6.2-litre naturally aspirated V8**. The live Exotic Cars listing confirms the 6.2L V8 and places this example within the 600–700 HP category.

Unlike many modern high-performance cars that rely on turbocharging or hybrid assistance, the SLS Black Series delivers its performance through a large-capacity naturally aspirated engine. That gives the car a distinctive response, sound and mechanical character that has become increasingly uncommon.

Combined with an automatic dual-clutch transmission, rear-wheel-drive layout and performance-focused chassis, the SLS AMG Black Series delivers the type of engaging experience that has helped establish it as an important modern AMG collector car.

Exceptionally Low-Mileage GCC Example

With only **4,000 km**, this particular SLS AMG Black Series is notable for its exceptionally low mileage. The listing also confirms **GCC specifications** and available warranty.

Those details add further appeal for enthusiasts and collectors seeking a **low-mileage SLS AMG Black Series in Dubai**, particularly in such an eye-catching colour combination.

The SLS Black Series occupies a distinctive place in AMG history: a naturally aspirated, front-mid-engined performance car with gullwing doors, rear-wheel drive and an uncompromising Black Series identity.
