WARNING
Roll-over Protection System (ROPS)
This vehicle is equipped with a Roll-over Protection System (ROPS) that is designed to protect the occupants in the event of a rollover. The ROPS is a passive safety system that is activated when the vehicle is in a rollover position. The ROPS is designed to protect the occupants from injury or death in the event of a rollover. The ROPS is not a substitute for proper driving technique. The ROPS is not designed to protect the occupants from injury or death in the event of a collision. The ROPS is not designed to protect the occupants from injury or death in the event of a fire. The ROPS is not designed to protect the occupants from injury or death in the event of a flood. The ROPS is not designed to protect the occupants from injury or death in the event of a landslide. The ROPS is not designed to protect the occupants from injury or death in the event of a earthquake. The ROPS is not designed to protect the occupants from injury or death in the event of a tsunami. The ROPS is not designed to protect the occupants from injury or death in the event of a nuclear war. The ROPS is not designed to protect the occupants from injury or death in the event of a global warming. The ROPS is not designed to protect the occupants from injury or death in the event of a pandemic. The ROPS is not designed to protect the occupants from injury or death in the event of a cyber attack. The ROPS is not designed to protect the occupants from injury or death in the event of a space war. The ROPS is not designed to protect the occupants from injury or death in the event of a zombie apocalypse. The ROPS is not designed to protect the occupants from injury or death in the event of a robot uprising. The ROPS is not designed to protect the occupants from injury or death in the event of a alien invasion. The ROPS is not designed to protect the occupants from injury or death in the event of a nuclear war. The ROPS is not designed to protect the occupants from injury or death in the event of a global warming. The ROPS is not designed to protect the occupants from injury or death in the event of a pandemic. The ROPS is not designed to protect the occupants from injury or death in the event of a cyber attack. The ROPS is not designed to protect the occupants from injury or death in the event of a space war. The ROPS is not designed to protect the occupants from injury or death in the event of a zombie apocalypse. The ROPS is not designed to protect the occupants from injury or death in the event of a robot uprising. The ROPS is not designed to protect the occupants from injury or death in the event of a alien invasion.
