2023 Range Rover SV Autobiography P530 LWB V8 for Sale in Dubai

Flagship Range Rover Luxury in Long-Wheelbase Form

Experience exceptional comfort and road presence with this **2023 Range Rover SV Autobiography P530 LWB V8 for sale in Dubai**, finished in distinctive **Satin Gold** with an elegant **Beige and Tan interior**. With **42,000 km**, this highly specified luxury SUV combines powerful V8 performance with the additional passenger space and refinement of the long-wheelbase configuration.

Created for buyers who expect more than conventional premium SUV luxury, the SV Autobiography represents one of the most exclusive interpretations of the Range Rover. Its sophisticated specification places a particular emphasis on rear-passenger comfort, making this example equally suitable for owners who enjoy driving themselves or prefer to travel in the luxurious rear cabin.

For anyone searching for a **Range Rover SV Autobiography P530 LWB for sale in Dubai**, this Satin Gold example delivers a distinctive combination of presence, comfort and prestige.

Distinctive Satin Gold Exterior

The **Satin Gold exterior** immediately gives this Range Rover a unique identity. The finish complements the clean, minimalist lines of the latest-generation Range Rover while adding a level of individuality appropriate for an SV model.

Its long-wheelbase proportions enhance the commanding silhouette while providing additional interior space. Flush design details, a confident front profile and the Range Rover's signature floating-roof appearance combine to create an SUV that is imposing without relying on excessive styling.

The Satin Gold finish works particularly well in Dubai, where its subtle metallic character can change noticeably under different lighting conditions, giving the vehicle an elegant yet unmistakable presence.

Beige and Tan Luxury Interior

Step inside and the **Beige and Tan interior** creates a warm, sophisticated environment. The two-tone colour combination complements the Satin Gold exterior while reinforcing the exclusive character of the SV Autobiography.

The long-wheelbase body provides additional space for rear passengers, making the second row a major part of the ownership experience. This example is equipped with a **leg rest**, allowing rear occupants to settle into a more relaxed position during longer journeys.

For buyers seeking a chauffeur-driven luxury SUV in Dubai, the additional rear space and passenger-focused equipment make the P530 LWB particularly compelling.

Rear Entertainment and Meridian Sound

Rear passengers also benefit from a **rear entertainment system**, providing dedicated entertainment for longer journeys. Whether travelling across Dubai or taking an extended journey through the UAE, the system adds another layer of convenience to the rear cabin.

A **Meridian sound system** provides the premium audio experience expected from a flagship Range Rover. Combined with the vehicle's refined cabin, it creates an immersive environment for music and entertainment.

The **panoramic roof** completes the interior specification by allowing additional natural light into the cabin and enhancing the sense of openness throughout the spacious LWB interior.

P530 4.4-Litre V8 Performance

Under the bonnet, the P530 is powered by a **4.4-litre V8 engine**, paired with an automatic transmission. This vehicle is listed within the 500–600 HP category, providing the effortless performance expected from Range Rover's flagship luxury SUV.

Despite its size and emphasis on passenger comfort, the P530 delivers substantial performance while retaining the smooth and composed driving character for which the Range Rover is known.

The combination of V8 power, long-wheelbase comfort and SV refinement allows this model to fulfil several roles at once: luxury family SUV, executive transport and powerful long-distance grand tourer.
