2024 Aston Martin DB12 for Sale in Dubai

Modern British Luxury Meets V8 Performance

Discover this elegant **2024 Aston Martin DB12 for sale in Dubai**, finished in sophisticated **Grey** with a beautifully contrasting **Ivory interior**. Showing just **2,000 km**, this low-mileage grand tourer brings together contemporary British craftsmanship, confident performance and the distinctive design language for which Aston Martin is renowned.

The DB12 represents the latest evolution of Aston Martin's celebrated grand touring philosophy. Designed to offer genuine performance without sacrificing refinement, it delivers the kind of versatility that makes it equally suited to an evening in the city, a weekend escape or a longer journey across the UAE.

For buyers searching for a **low-mileage Aston Martin DB12 in Dubai**, this 2024 example stands out with its refined colour combination, powerful V8 engine and carefully considered comfort features.

Sophisticated Grey Exterior

The **Grey exterior** gives the DB12 an understated yet commanding appearance. Rather than overwhelming the car's design, the colour allows its sculpted surfaces, muscular proportions and distinctive Aston Martin details to speak for themselves.

From the prominent front grille and long bonnet to the broad rear proportions, the DB12 combines traditional grand-tourer elegance with a more athletic contemporary character. The Grey finish works particularly well with this approach, giving the car a timeless appearance that should appeal to buyers seeking sophistication rather than an overly dramatic specification.

Luxurious Ivory Interior

Step inside and the exterior's restrained character is complemented by an elegant **Ivory interior**. The lighter cabin creates a luxurious atmosphere and provides an attractive contrast against the Grey bodywork.

Among the notable comfort features are **electric memory seats**, allowing preferred seating positions to be conveniently adjusted and stored. It is a practical addition to a vehicle designed around both performance and long-distance comfort.

The DB12's cabin represents a more contemporary direction for Aston Martin, combining traditional craftsmanship with a modern, driver-focused layout. The result is an interior that feels special without losing the usability expected from a luxury grand tourer.

4.0-Litre V8 Performance

Under the bonnet is a **4.0-litre V8 engine**, paired with an automatic transmission. This combination provides the DB12 with the strong performance expected from Aston Martin while retaining the refined characteristics essential to a premium GT.

Performance is only one part of the DB12 experience. The car is designed to balance responsiveness and driver engagement with the comfort required for everyday use. That dual personality is an important part of its appeal, particularly for owners who want a luxury sports car they can genuinely enjoy on a regular basis.

With only **2,000 km**, this example offers additional appeal to buyers searching for a **2024 Aston Martin DB12 for sale in the UAE** with very low mileage.
