2020 Bentley GTC W12 Black Edition for Sale in Dubai

Open-Top British Luxury with W12 Performance

Discover this exceptional **2020 Bentley GTC W12 Black Edition for sale in Dubai**, presented in a sophisticated **White exterior** with a striking **Red interior**. Showing just **3,000 km**, this remarkably low-mileage grand tourer combines Bentley's renowned craftsmanship with powerful W12 performance and the excitement of open-top driving.

The Continental GTC has been created for drivers who want genuine performance without compromising luxury or refinement. Its elegant convertible proportions give it an unmistakable presence, while the Black Edition character introduces a more assertive edge to the traditional Bentley grand touring formula.

This particular example is further distinguished by **carbon fibre exterior elements**, creating a sporting contrast against the crisp White paintwork. For buyers searching for a **Bentley GTC W12 Black Edition for sale in Dubai**, the combination of exceptionally low mileage, desirable colours and carbon detailing makes this an especially attractive example.

White Exterior with Carbon Fibre Details

The **White exterior** highlights the Continental GTC's sculpted bodywork beautifully. Its broad stance, flowing lines and distinctive Bentley front grille create a powerful yet elegant appearance, whether the convertible roof is raised or lowered.

This example benefits from **carbon fibre exterior detailing**, adding a more performance-oriented character to the luxurious design. The darker carbon elements provide a sharp visual contrast against the White bodywork and complement the Black Edition theme.

With the roof lowered, the vibrant Red cabin becomes part of the exterior appearance, creating a dramatic White and Red colour combination that gives this GTC unmistakable road presence.

Striking Red Bentley Interior

Inside, the **Red interior** provides a bold contrast to the White exterior. Bentley is renowned for combining traditional craftsmanship with contemporary technology, and the Continental GTC cabin reflects that philosophy through its luxurious materials and carefully considered design.

The rich Red colour gives the interior a sporting personality while maintaining the sense of occasion expected from a Bentley.

As a grand tourer, the GTC is designed around more than outright performance. Its cabin provides the comfort and refinement required for longer journeys while still creating an engaging environment for the driver.

6.0-Litre W12 Performance

At the heart of this Bentley is its **6.0-litre W12 engine**, paired with an automatic transmission. The W12 powertrain is one of the defining features of this generation of Continental GTC, delivering the effortless performance and smooth power delivery expected from Bentley's flagship grand touring models.

The combination of substantial performance and open-top motoring gives the GTC a distinctive personality. It can provide relaxed, refined cruising when required while delivering the performance expected from a high-powered luxury convertible.

With only **3,000 km**, this 2020 example is particularly appealing for buyers searching for a **low-mileage Bentley Continental GTC in Dubai**.
